

GOVERNMENT SOLUTIONS
The Power of We™

Barrier-Free, Simple and Reliable Communications for US Government Agencies

Avaya Government Solutions unified communications platform, the Avaya Aura® Application Server 5300, brings together the **right people with the right information** to deliver **results** in real time.

The Avaya Aura® Application Server 5300 provides:

- **Real-time presence with end user location** enabling more efficient collaboration between personnel, partners and contractors
- **Scheduled and ad-hoc** voice and video conferencing (unified conferencing)
- **Contextual awareness** eliminating multiple interfaces by integrating presence with histories, contacts, and real-time access to information
- **Single number dial** to reach users across multiple devices, networks and platforms
- **Microsoft Outlook integration** with corporate directory integration, call-logging, click-to-call, web page, whiteboard and clipboard sharing
- **Secure communication channels** ranging from instant messaging, voice and video calling and unified conferencing

- **DoD UC Approved Product List (APL) platform running FIPS 140-2 certified** encrypted signaling and bearer communication
- **Multilevel Precedence and Preemption (MLPP)** support helps provide assured services to enhance military customer communications

About Avaya Government Solutions

Avaya Government Solutions is a network-centric integrator converging IT services and intelligent communications to help government ensure the security, livelihood, and well being of its citizens. We deliver a comprehensive portfolio of technology and high-end services capable of meeting the demands of the most complex and important systems in the world. Headquartered in Fairfax, VA, Avaya Government Solutions engineers, deploys and manages mission-critical solutions for government. For more information, please visit www.avayagov.com.
